

DataBase Mission Statement

Justin Bak, Matthew Palmer, and Charlie Hand

March 2018

High Level Objectives

- To track the status of all building upgrades
- To track the status of all troop upgrades
- To track the status of all hero upgrades
- Each user's data will be password protected
- To show Elixir, Gold, and Dark Elixir requirements for each building
- To Track information about Stars gained from wars
- To Track data about upgrade time duration

Mission Statement:

The purpose of the database is to track Clash of Clans user and clan data in the game. It will allow for each user to make more informed decisions about upgrades to serve as an aid for improving gameplay upgrade decisions and cost analysis. Using the application each user will be able to view specific stats for each building, hero, and troop type along with the required time, gold, elixer, and dark elixer for an upgrade.
